for all your industrial needs*

Siemens is a player in the renewable energy industry, provides a comprehensive portfolio of products, solutions, and services to help build and operate microgrids of any size, monitoring and controlling of microgrids. They manufacture Converters, Motors, Generators, Motion Control Systems, Cabling/Control Cabinets, AC Drive, Flow Meter, Relays, PLC, Switches, Contractors, etc.

PRESSURE SWITCH

Schneider Electric offers Drives, Encoders, Glass Relay, Over Load Relay, Photo Electric Sensor, Power Contractor, Circuit Breakers & Switches, Medium Voltage Switchgear, Safety Light Curtain, Light Switches and outlets, Motor Starters and protection components that suit all interiors and exteriors. The range of electrical sockets and switches are useful in protecting from unexpected shocks and surges.

Rockwell Automation, the world's largest company dedicated to industrial automation and information. Under brand name Allen-Bradley, they provide software applications and automation components. The Company offers circuit protection, Condition Monitoring, Energy Monitoring, Lighting Control, Operator Interfaces, Signal Interface, network technology, industrial and motor control components, as well as sensing devices.

L&T is a technology-driven company with leading edge capabilities in fields related to infrastructure and basic industries. L&T is India's largest manufacturer of low voltage switchgear and controlgear. L&T switchgear has a proven performance record in Indian as well as tropical conditions. It withstands adverse factors like wide voltage fluctuations, excessive humidity, dust and high ambient temperature.

Lapp produces full range of data cables for fast and secure transfers of data. It offers Classic Cable, Connector, Encoder Cable, Heat Resistance Cable, Screen Shielded Cable, Special Cable, Unitronics Cable, Sensor / Actuator Cable, Coaxial Cable, Bus System INTERBUS, Industrial Ethernet, Accessories, Polymer Optical Fibre Cable, Glass Optical Fibre, Plastic Cladded Fibre Cable and accessories, Industrial Connectors, Cable Glands and Cable accessories.

Polycab offers wide range of Wires & Cables, LT-XLPE Cable, Lighting & Luminaire, Fans, Solar Pump Controller, Switches, Conduit & Fittings, Geyser, Monoblock Pumps, 3-Core Flat Submersible Cable, Coaxial Cable, CCTV Cable, FRLF Wire, Green Wires, Instrumentation Cables, LAN Cables, Optical Fibre Cables, Solar Cable, Telephone Wire, Solar DC Cables, Solar DC MCBS, Solar Grid Tie Inverter, Submersible Pumps, Switchgears, LED Bulbs, Batons, Street Lights, etc.

Festo India with its wide range of products offer Pneumatic Drives, Servo-pneumatic positioning systems, Electromechanical Drives, Motors & Controllers, Grippers, Handling systems, Vacuum technology, Valves, Valve Terminals, Motion Terminals, Sensors, Image Processing systems, Compressed Air preparation, Pneumatic fitting systems, Electrical Connectors, Software, Process Automation, Silencers, Air Guns, Pneumatic Displays, Inscription systems, Control Cabinets, Mounting Plates, Modules, Integration solutions.

SMC manufactures Pneumatic Automation products. Products consist of Energy Saving, Air Cylinders, Directional Control Valves, Rotary Actuators, Grippers, Air Preparation Equipment, Modular FRL/Pressure Control Equipment, Fitting & Tubing, Pneumatic Accessories, Industrial Filters, Switches & Sensors, Static Electricity Elimination Equipment, Process Gas Equipment, Temperature Control Equipment, Electric Actuators, Vacuum / Hydraulic Equipment, Pneumatic Instrumentation, Chemical Liquid Valves/Fittings, IO Link Products, Accessories, etc.

IFM

IFM's exceptionally large product range includes Sensors (Inductive, Capacitive, RFID, Magnetic, Cylinder, Ultrasonic, Photoelectric, Laser, Distance, Fibre Optic, Flow, Temperature, Touch, 3D Sensors), Cameras for motion control and safety technology, Encoders, Flow Meters, Light Curtains, Grids, Relays, Pulse Evaluation Systems, Power Supplies, Switching Amplifiers, Accessories, Industrial Image Processing and communication, identification systems for mobile machines.

SICK

Sensor Intelligence.

SICK

SICK is one of the world's leading manufacturers of sensors, safety systems, machine vision and automatic identification products for industrial applications. From verifying products at high speeds, controlling the flow of materials or safeguarding hazardous areas, SICK provides a wide range of solutions such as Automation Light Grids, Detecting & Ranging Solutions, Dust Measuring Devices, Fibre-optic sensors & fibres, Gas Analyzers, Motors, Safety Switches, Analyzer solutions and Accessories.

The 3M Science of Safety are experts keeping your environment safe. From safety glasses, hearing protection, disposable respirators, safety harnesses to reflective road markings, water filtration, and fire-stopping solutions, it develop personal protective equipment (PPE) and other safety solutions with decades of industry experience and industry standards, and extend innovation to help keep your facilities, roads, and communities just as safe.

Honeywell Salisbury, the world leader in the manufacturing of personal protective equipment and live line tools to protect electrical workers from the hazards of their job. Salisbury offers the complete solution with insulating rubber gloves, blankets, line hose, temporary grounding equipment, voltage detectors, clamp sticks, distribution dead-end insulators, plastic cover-up and dielectric boots.

KARAM endeavours to provide the finest and best solution in the field of protection from head to toe, a one stop shop for personal protective equipment. KARAM specializes in the field of Fall Protection, Head Protection, Safety Shoes, Safety Eyewear, Hearing Protection, Welding Protection, Hand Protection, Protective Workwear, Rope Access and Rescue, Confined Space Entry and Egress and Fixed Line Systems.

BLACK+DECKER is a leading global manufacturer and marketer of power tools, hardware and home improvement products has now entered the world of safety. BLACK+DECKER, through its Head to Toe Safety offering, to bring to the Indian market innovative products that the demanding Indian consumers have been seeking. Black+Decker safety product range comprises Head / Eye / Face / Hand / Fall Protection, Safety Footwear, Full Body Hardness, Tools & Lanyard, etc.

Phoenix Contact India (Pvt.) Ltd. established as a joint venture with Phoenix Contact GmbH and Co., Germany has been one of the leading technology oriented company since its inception in 1993. With products mentioned below offering value added solutions to the different industrial segments including Energy, Process, Machine Tools, EMS, Railways, Telecom etc. They added up in existing capacity, a state of the art manufacturing plant in the outskirts of the NCR of Delhi which will enhance the service level to serve customers much better.

The HARTING Technology Group is skilled in the fields of electrical, electronic and optical connection, transmission and networking, as well as in manufacturing, mechatronics and software creation, products such as connectors for energy and data transmission applications including, for example, mechanical engineering, rail technology, wind energy plants, factory automation and the telecommunications sector.

NexaWeld is a company that has been set up for manufacture and trading of welding consumables. NexaWeld is well equipped with sophisticated plant and machinery along with various testing equipment to manufacture wires and welding electrodes with complete precision. NexaWeld has a complete in-house testing lab including Chemical lab, Physical lab, welding lab and spectrometer to control all parameters during and post production.
